We Offer Customized Laundry Solutions To Fit Your Athletic Facility's Needs

Athletic programs of all levels often struggle to keep pace with the influx of dirty athletic laundry. But doing so is critical. A highly productive laundry helps prevent infection among athletes; guarantees uniforms, towels, loops and practice wear are clean and disinfected for practices and game days; and ensures equipment managers and assistants can focus on important duties other than laundry. With a complete Sports Laundry System typical laundry loads are washed, disinfected and dried in less than 45 minutes — allowing you to complete much more laundry, sooner!

The System

Each washer and dryer is sized to meet your organization's specific needs and then programmed to wash and dry according to load type. Detergents, chemicals and ozone are injected automatically. Operators just enter a program number and press start. It's that easy.

Optional Disinfection

Sports Laundry Systems team high-performance washers and dryers with, or without, optional sanitizing ozone. The sanitizing ozone is an extra safety measure that ensures all athletic laundry is sanitized to prevent infection among players and staff.

"One of our old washers had gone out so we replaced it with a Sports Laundry System washer and dryer. They got to be the set I relied on and enjoyed using the most. They're simple and quick. So, when it came time to replace all of our laundry equipment, it was a no brainer. I want a room full of them."

— Matt Rutherford, Director, Equipment Operations
University of Texas, Austin (UT)

A safe clean matters! The Sports Laundry System is clinically proven to disinfect athletic laundry — killing 99.9 percent of the bacteria, viruses and superbugs contaminating soiled laundry.

"We are so happy with the increase in productivity, wash quality and dependability, plans are in the works to also replace the equipment in our three other laundries. The upgrade will free up our staff for other critical responsibilities."

— Nick Determan, assistant athletic director for equipment operations
U.S. Military Academy at West Point (West Point), N.Y.

At GNA, we cater to a number of markets with equipment and brand offerings designed to improve our clients' businesses.

Market Channels

Commercial Every laundry is unique in size, scope and goals. At GNA we specialize in improving commercial on-premise laundries at hotels, vet clinics, salons, dairies, fire departments, correctional facilities, and more. We work to cut energy and labor costs, while boosting laundry production and quality.

Industrial Equipment flexibility and automation are key ways to boost production and quality while lowering overhead costs. GNA specializes in developing industrial laundries from scratch, as well as simply improving them with quick Returns on Investment (ROI).

Textile Care Our advanced wet cleaning technologies deliver exceptional programming flexibility for improved textile restoration results and a greater percentage of wet cleaned to dry cleaned items. Eco-friendly and a fraction of the cost of dry cleaning equipment.

Vended We help vended laundries get into business the right way, with exclusive products and expertise that help you stand apart from the competition.

Multi-Housing Apartment complexes, dormitories and residential facilities require durable, simple-to-use washers and dryers available in space-saving configurations. At GNA, we offer the equipment and local distributor support — often with creative lease and share options — to reduce management hassles while boosting revenue.
