

## GSA Laundry Procurement — Simple & Straightforward

It couldn't be easier for government entities to purchase laundry solutions through Girbau North America. No matter your need, whether it's laundry equipment for a fire department, military housing, correctional facility, quartermaster laundry or something else, GNA's GSA point person will walk you through every step, beginning with equipment selection and sizing and ending with distributor installation and servicing.

### Step 1

Call Wes Kraemer at 800-256-1073 or email him at [wkraemer@gnalaundry.com](mailto:wkraemer@gnalaundry.com). He will talk with you about your needs and suggest equipment solutions to fit your budget, performance requirements, capacity and production needs.

### Step 2

GNA will pull your local authorized distributor into the loop to provide installation assistance. You'll receive a quote from GNA's office for specified laundry equipment customized to meet your specific needs. This typically takes 2-3 days from date of first contact.

### Step 3

Once the quote is approved, equipment ships and your local authorized distributor provides installation and post-sales support. From start to finish, your GSA point person manages the entire project — making it seamless and easy!

### Step 4

Done! At GNA we provide the most comprehensive laundry product offering in North America, with our headquarters based in Oshkosh, Wis.
